Poetry.

Easter Morning.

Look! the long dark night is passing.

And the gray mist rolls away;

Which all night in brooding silence

O'er the world unconscious lay.

So a hand, unseen, is lifting

From a world of grief and sin;

All the clouds of doubt and error

That for centuries have been.

Quietly the blushing morning

Goeth forth to meet her king.

And beneath his warmth and power,

Seen the world is blossoming.

So the heart of man, expectant

Meets the Master on the way.

And the risen Son of Mary,

Makes the world's glad Easter-Day.

Mrs. Mary Felton.

The Quincy Patriot.

QUINCY, SATURDAY, APR. 4, 1896.

\$10,000 for Quincy.

It will be good news to Quincy to hear that \$10,000 has been appropriated by Congress for the improvement of Town river. Some years ago Congressman Morse tried to get an appropriation though but failed.

Some months ago ex-representative Hanson requested Congressman Atwood to try his luck and the latter gentleman promised to do his best, and he has succeeded, for in a telegram sent to Quincy Thursday night from Congressman Atwood from Washington he says Quincy will get the appropriation, which will go through on Monday.

Household Economies.

It is desired to call the special attention of Quincy women to two lectures to be given by Miss Maria Daniel of the New England Kitchen, Boston, one on Monday, April 13, in the chapel of the Orthodox church, "Marketing, or How to buy our Food," the other, Monday, April 27, in the Unitarian chapel, on "What Food should eat—with special suggestions as to Children's Food," the hour for both being four o'clock.

These lectures are well worth attention not merely because they are upon practical subjects and to be given by a competent and experienced lecturer, but also because they are given at the request of ladies in the Episcopal, Orthodox, Unitarian and Unitarian churches, and represent the beginning of a systematic attempt to arouse interest in the serious study and consideration among Quincy women of what is commonly denominated "Woman's work," all branches of cooking, marketing, laundry, cleaning and care of house, ventilation and drainage, sewing and mending, household decoration and furnishing, etc.

It seems hardly necessary to suggest that "woman's work" has fallen some what into disrepute among women in these so-called progressive times. The general idea of women paying attention to household work because compelled by circumstances. Young girls regard it as dull and uninteresting and generally manage to avoid taking any part in it until perhaps marriage makes it a necessity, and women earning a living choose any other work, however hard, in preference to domestic service, ill health, unhappiness and unnecessary expenditure being the result. Meanwhile in many an ill-kept household, sick and poor.

Never the less, in spite of these depressing conditions among women in general, there is a growing belief among women students and thinkers that "woman's work" is of vital importance, and should receive attention as such—that it should be studied as a science in college, that practical lessons in household management should form an indispensable part of the education of every young girl, rich or poor, and that household work should be taken up by intelligent women desiring to earn a livelihood as a profession, as honorable as it is desirable, offering as it does an ever enlarging field to the ever increasing army of women workers.

Already courses in Household Economies are given in some of our largest women's colleges. Magazines, books and lectures treat of the subject and all its branches, and within two or three years a "National Household Economic Association" has been established with branch associations in many states, of which Massachusetts is one.

From these State associations town and city branches are springing up in their turn. That Quincy will eventually have an Economic Association is probable; meanwhile these lectures have been arranged at a price, (thirty cents for two, twenty cents for single lecture), that it is hoped will bring them within the means of all women desiring to attend.

Will not Quincy women seriously consider the importance of this enterprise, and give it all possible encouragement?

Several in Quincy are eligible.

Wednesday morning at 11 o'clock a well known ancient Old Fellow passed away. Bro. Charles D. Cole, as grand secretary of the Grand Lodge for over forty years, was also as grand secretary well known to all prominent Old Fellows and officers of lodges.

He was well acquainted with the old Mt. Washington lodge of this city a half century ago, and it was a pleasure to him to assist at the reconstitution in 1884 and since that date to give aid and counsel to the lodge. He retired from active work in the order two or three years ago. He was born in Scituate and was 72 years of age.

An amusing feature at Mrs. Follett's Sunday evening party, was the arranging of photographs of the young people present, taken before their fifth birthday. That of one hard-headed young Quincy gentleman, representing a two-year-old cherub with fangs and claws, was taken for a picture of one of the girls, until a shrewd young woman detected the likeness.

Whist prizes, delicious refreshments lent themselves to the enjoyment of the evening that of meeting Miss Tobey of Quincy, whose mother was one of our old time Quincy girls.

QUINCY POINT.

The Quincy Cycle company are rushing business, giving employment to 100 hands, half of whom are working days, and half nights.

Work was commenced on Thursday morning to rebuild the street railway line between Quincy Centre and Quincy Point. The alarm from Box 73 at 4:40 Saturday afternoon was rung in for a fire in the woods at Quincy Neck, at the right of Quincy avenue. The fire which had been burning ever since the day before was working toward some piggeries, owned by Mr. Mitchell and the assistance of the Fire Department was required to prevent these taking fire.

The seriousness of a social gathering that was held not many miles from Edwards hill on Wednesday evening was somewhat disturbed shortly after 10 o'clock by a fire from a near by box. The party made all haste to reach the box before the apparatus, which they did, but failing to find the usual excitement attendant upon fires it dawned upon them that it was the first of April. Further investigation showed that the cause of the commotion was a piece of wire with a man on one end of it manipulating a push button, and now John Quincy laughs to himself as the pictures in his mind the success of the little joke.

Voluntary. Doxology. Invocation. Responsive Readings. Anthem,—"How Calm and Beautiful." Mrs. Mary F. wife of Mr. Timothy Driscoll, died at her residence at West Quincy, Tuesday night, aged 21 years. This was a peculiarly sad death as Mr. and Mrs. Driscoll had been married but a little over a year and were just entering into the full enjoyment of their life when that grim destroyer death entered the happy home and removed its shining light, her illness being of but a few hours' duration.

Mrs. Driscoll's maiden name was Joyce and she had always resided in West Quincy where she was a general favorite with all, and her untimely death has cast a gloom over this immediate part of the city.

A new law approved last week provides that "Whosoever violates any rule or regulation for the government or use of any public reservation, parkway or boulevard, made under authority of law by any board or officer in charge thereof, shall for each offense be punished by a fine not exceeding twenty dollars, on complaint before any court of competent jurisdiction."

QUINCY POINT.

The Quincy Cycle company are rushing business, giving employment to 100 hands, half of whom are working days, and half nights.

Work was commenced on Thursday morning to rebuild the street railway line between Quincy Centre and Quincy Point. The alarm from Box 73 at 4:40 Saturday afternoon was rung in for a fire in the woods at Quincy Neck, at the right of Quincy avenue. The fire which had been burning ever since the day before was working toward some piggeries, owned by Mr. Mitchell and the assistance of the Fire Department was required to prevent these taking fire.

The seriousness of a social gathering that was held not many miles from Edwards hill on Wednesday evening was somewhat disturbed shortly after 10 o'clock by a fire from a near by box. The party made all haste to reach the box before the apparatus, which they did, but failing to find the usual excitement attendant upon fires it dawned upon them that it was the first of April. Further investigation showed that the cause of the commotion was a piece of wire with a man on one end of it manipulating a push button, and now John Quincy laughs to himself as the pictures in his mind the success of the little joke.

Prize Entertainment.

The young ladies of the Epworth League of the M. E. church, West Quincy, gave the second prize entertainment in the auditorium of the church on Wednesday evening. It was a grand success financially and otherwise. A large audience listened to the following programme, which consisted of piano duet by Misses Addie and Annie Miller; readings by Miss Miller; vocal duet, Misses Walker and Miller; baritone solo, Master Walter; vocal solo, Miss Alice Littlefield; violin solo, Master John Black; and piano solo, Miss Lottie O. Cunt. The entertainment closed with the milkmaid's drill, which was finely executed by twelve little misses who were appropriately costumed, each carrying in their hand a milk pail and stool.

The several numbers on the programme were very well rendered. All listened with great pleasure to Miss Tucker whose readings were rendered in a very pleasing manner and were received with much applause. The vocal and instrumental selections were well appreciated.

The "Milkmaid's Drill" under the direction of Miss Cassie Thayer, captain, was the concluding feature, and consisted of several parts. It was opened by the Farmer's Call, the farmer being impersonated by Mr. Charles Gunder. The milkmaids, in white dresses and carrying milk-pails and pails, then entered and marched to the stage where they performed the various orders of a military march and drill. The milkmaid chorus gave several selections. A pleasing feature was the entrance of Little Bo-Peep (Lillian Bann) while the chorus sang the well known Mother Goose Melody. The finale consisted of a vocal solo by the farmer's wife, the latter represented by Miss Addie Miller, after which she was joined by the farmer and chorus. The milkmaids, led by Little Bo-Peep, then marched to the tastefully decorated vestry where refreshments were served.

The milkmaids were greatly indebted to Miss Haskell who kindly gave her services as their accompanist for the evening. The following young ladies took part of the milkmaid: Grace Doble, Maud Shackley, Jennie Crowell, Mary Green, Grace Turner, George Thayer, Lena Manly, Carrie Greer, Florence Thayer, Lottie Crowell, Jennie Doble, Cassie Thayer.

Works of Art.

The Sunday school of the Unitarian church has lately secured for the chapel some very fine copies of noted works of art. There are two casts, in relief, of the "Singing Boy" from the celebrated frieze by Luca della Robbia, which adorns the organ gallery in the cathedral at Florence; pictures of two angels from a fresco, by Melozzo da Forlì, now in one of the chapels of St. Peter's at Rome; Murrillo's Saint Anthony and the Christ child, now in the Berlin gallery, and a Madonna and Child by the same artist, in Florence; also the Young Saint John, by Andrea del Sarto, original of which is in the Pitti gallery, Florence.

The casts are done in ivory shell plaster. The pictures are artistically framed in dark oak.

The Sunday school was enabled to secure these by the request of the late Mr. George L. Gill. The pictures and casts will be made a memorial to him, and so these examples of things well done in far-off times and places will come to the hands of those who are learning in this chapel of the higher life, not only the lesson of beautiful things in art, but also the lesson of a good life as exemplified so lately and in our midst by our generous friend.

The Hospital Aid.

The Hospital Aid Association, having found a pleasant meeting place in the parlors of the Granite City Club, so generously offered for its use, is again ready to continue the good work begun in the spring of 1895. As the membership has increased to over one thousand names the collecting of the annual fees has come to be by the most efficient of the directors. Consequently the constitution has been so amended as to admit of a larger number of directors in those wards where the membership is large and scattered over a large territory.

During the year 1895, 282 articles were made and sent to the Hospital, at a cost of \$28.18, and a sum of \$28.18 has been hitherto to do necessary moneys to the friends.

The following named persons are the officers for the ensuing year:

President—Mrs. George S. Keyes.

Vice Presidents—Mrs. Thomas Fennell, Mrs. Herbert M. Fennell.

Secretary—Mrs. John W. Sanborn.

An Arab Saying.

Remember, three things come not back ;
The arrow sent upon its track -
It will not answer, it will not stay
Its speed ; it flies to wound or slay.

The spoken word, so soon forgot
Fly thee ; yet it has perished not ;
In other hearts 'tis living still,
And doing work for good or ill.

And the lost opportunity
That cometh back no more to thee.
In vain thou weepst, in vain dost yearn,
Those three will nevermore return.

"Yes, O Sultan, since all men are mortal and it is not given to any to be perfect! I am happy in this world, know that there is no greater happiness of Ashimullah than the Vizier. For these most lovely ladies have each and all of them, so strong an avowement a temper and so great a reciprocal hatred, that Ashimullah is compelled to keep them apart, each in her own chamber, and by no means can they be allowed to come together for an instant. Not even my presence would have restrained them, and therefore I saw each alone.

"I do not object, to a little temper," observed the Sultan, stroking his beard again. "It is a sauce to beauty, and keeps a man alive."

Presently Lalakalla came forth; and as it happened as before, save that she stained her face on a olive tint and put on a robe of coal-black hair.

Yet again Lalakalla came out from visiting the Sultana, and on this occasion she hastily donned a robe of red, sprinkled white powder over her cheeks, and set on her head a most magnificent structure of ruddy hair. Thus arrayed she went again into the room where the Sultana was.

Early the next morning Ashimullah was summoned to the palace, and at once ushered into the presence of the Sultana.

"O Ashimullah, I have reflected," said the Sultana, "and I desire that you will send me that wife of yours who has ruddy

Historical and Genealogical.
President John Adams' Children

Quincy, the "City of Presidents," has much yet to learn of the distinguished Adams families, and will be interested in their childhood. The Herald of April 19 says the children of President John Adams grew up and were married before he became chief executive of the nation. Abigail was the eldest. The second, John Quincy, was the most widely known of the descendants of Presidents. As a child while he was obedient and ready, it is said that he was dreamy, meditative, curious and investigating. He spent much

QUINCY SATURDAY, APR. 25, 1896.

Contract Awarded.

The contract to build the two new brick school buildings at Quincy, for which \$75,000 was appropriated by the City Council, has been awarded to the firm of Howard of Brockton, the lowest bidder. His bid was \$50,850 exclusive of heating and ventilating.

Commissioner Knowlton says he has found him to be thoroughly reliable, and the city is assured of having two good buildings.

The contract for heating apparatus at the West Quincy building was given to Lynch & Woodward, and that at Norfolk Downs to Walworth Construction and Supply Co., while the contract for the sanitary arrangements has been awarded to Fuller & Warren. The figures for the heating and ventilating of both buildings is \$7,000.

Sidewalks by Assessment.

Commissioner Eaton in his annual report for 1895 had the following to say about sidewalks. Will the City Council act on his suggestion?

"The sidewalks in our city are very poor, and no satisfactory results can be obtained until some action is taken to establish permanent sidewalks with edgewise, whereby the abutters are obliged to pay one-half the cost. If these sidewalks could be constructed on certain streets each year, in a comparatively short time we would have some improvements that would be lasting and also beneficial to the public. As it is now, it is impossible to maintain good sidewalks without edgewise, and they are few and far between. One thousand dollars was appropriated for this work, and a few have taken the advantage of securing for themselves a permanent sidewalk."

Personal.

Munroe Crane, a native of Quincy, was in this city on Patriot's day. He was in good health and spirits, and we think we never saw him looking better. He is now a wealthy and prosperous merchant in New York city.

When a boy he made his first money in carrying the Quincy Patriot from Boston to Quincy Point and Neck. He was a smart boy, and by saving his pennies soon earned enough to take him to Chicago, Ill.

After living in this Windy City a number of years, he accumulated sufficient funds and acquired the knowledge of killing and dressing hogs in a quick and scientific manner. He then went to the Empire City, where he had built in the most improved manner, capable of slaughtering from 500 to 2,000 hogs a day; which he has most successfully managed to the present time.

The City Debt.

Candidly consider the municipal debt of Quincy is not large and the mortgage does not run for a long period. The annual report of City Auditor Hall on Jan. 1, showed the total, outside of water and playgrounds, to be \$204,805.61, a trifle over one and one-half per cent. of the valuation. There were no new debts contracted all this amount would be paid within six years, as the following summary shows:

Birthday Church Party.

The aggregate number of years represented at the birthday party, held under the auspices of the Ladies' Aid Society at the Wollaston Unitarian church on Thursday evening was 5000 years. As each year represented one cent, the society consequently made \$50.

The idea was a very clever one and the whole affair was well carried off by the committee—Mrs. Edmund E. Taylor, Mrs. Frank A. Page, Mrs. Charles K. Crane, Mrs. Charles T. Baker and Mrs. George W. Bennett.

Patriot's Day.

"And what is so rare as a day in June? Then, if ever, come perfect days; Then Heaven tries the earth if it be in tune, And over it softly her warm ear she leans."

Well, might have been said of the twentieth day of April as well as of a day in June. It is rare that so perfect a day for a holiday, for recreation and outdoor sports, is had in the early spring. The temperature was just right for those engaged in outdoor sports, as well as for those who wished to roam through the fields and woods to commune with nature. The dust on the roads was laid by the copious rain of the day before making the conditions for driving and bicycling nearly perfect.

Quincy Among Largest.

These towns taken together constitute 88.96 per cent. of the total number of the cities and towns, while they contain 31.21 per cent. of the entire population of the state.

Eleven cities and towns have from 10,000 to 20,000, and Quincy is among the 28 with over 20,000 population.

The total number of cities and towns Jan. 1, 1890, was 353, of which 32 were cities and 321 were towns. In 1880 there were 323 cities and 325 towns, making a total of 348 cities and towns.

House cleaning time has come and we need an accident policy to get about. May be the practice of one of our leading physicians is failing in the same way as the cat to catch more patients. It is as much as one's life is worth to try to see him, such thorough renovation is going on at his house. So it goes in many households, but the result justifies the end as soon as will come out fresh and lovely within as without where failure is accomplishing such fair results in the same seeming disorderly way.

The street railway had a large business Monday, the pleasant day calling out many. Open cars were run until late at night, many trips from early morning until late at night, many cars were loaded and on the Neponset line it was necessary to double up the service. On the Hough Neck line the riding was much heavier than was expected and this line carried large crowds at every trip. Many of course went down to spend the day near the salt water and other doubtless went down to look after their cottages and get them ready for occupancy.

Waterhouse, one of the commissioners on the Neponset line of the Quincy & Boston street railway, and one of the most popular men in the employ of the company has been appointed to the office of assistant superintendent, the duties of which he enters upon Monday. In entering upon his new duties he does so with the best wishes for future success of his many friends.

It will be noticed that this is an increase in the admission fee from \$1 to \$5; in the assessment from \$1 to \$3; and in the treasury fund, or reserve, from \$10 to \$200. The proposed increase in the assessment, and the reserve fund, are undoubtedly bringing out a large attendance at the meeting.

The Quincy Patriot.

SATURDAY, MAY 2, 1896.

Society in Babyland.

Eighteen silver-plate babies responded to the invitation of Miss Mary Munroe Faxon to attend her first anniversary party from two to four Tuesday afternoon.

Four generations on her mother's side were present, and the young residents can remember representatives of the family in Quincy, far back. Her great grandfather "Uncle Job" as he was called was a prominent figure in Quincy, living into the nineties. From his childhood to that of this youngest of the Faxon in this section a revolution in ways of living has been seen.

Mr. Henry M. Faxon's home was decorated with small pink roses and carnations, in profusion. Gifts were in plenty and the wee ones, who are one of the few sunshine babies, greeting all, wherever she is, with a sweet smile, had souvenirs for the baby guests. These were carefully concealed under a pink and blue striped table and were eagerly grasped.

The usual silver porridge from the father was not wanting, and a delicate birthday cake for the elders and a tea for a lot. It was not decided which was the prize baby, as there were eighteen different votes on the eighteen babies, but a more beautiful sight can not be often seen from only four months to two or three years of age. Rogers were sent from two babies. The occasion was one to be remembered and all wished a long and useful life to this, the first grandchild of our renowned Henry H. Faxon.

Chapel Builders Entertain.

The Chapel Builders of the Centre Congregational church held a social baby sale in the chapel Wednesday afternoon and evening, which proved also a very social occasion. The hours were from 4 to 10.

A feature of the sale was the children's table, the articles for which were solicited and sold by children under ten years. They were Beattie Merrill, Ramie Doble, Joe Sheppard and Carl Prescott, with Robert Hall as cashier. The table netted quite a sum.

The confectionery table was in charge of Miss Lillie Taylor, assisted by Miss Abby and Miss Pettengill.

There were also three fancy tables in charge of the directors—Mrs. Frank E. Hall, Mrs. James F. Merrill, Mrs. C. F. Badger, Mrs. George H. Hitchcock, Mrs. C. W. Guy and Mrs. James McFarlane, assisted by young ladies.

At 6:30 a baked bean supper was served and all pronounced it a good one. It was presided over by Mrs. A. H. Gilson, who was assisted by many willing workers. There was also an impromptu entertainment, which was evidently pleasing to all. It included piano solos by Miss O'Brien, violin duets by John Black and Miss Black, a song by Mr. Tanager, violin obligato by John Black, songs by Warren Mitchell, harp solos by Master Munroe, recitations by Jesse Gould, and songs by Miss Hayden.

Wales served cream and cake during the evening.

Violin solo by Frank Curtin of Atlantic Reading, "Elizabeth Act 9," by Miss Hall.

A discussion on China and Japan by the members, customs and characteristics followed in which Mr. William Reed, Mr. J. Q. Littlefield and Miss Carrie E. Small participated; the last mentioned relating personal experiences in the Chinese quarters in California.

Another finely executed violin solo by Frank Curtin closed the programme.

The special committee of the Legislature has given three whole days to the Norfolk County investigation this week on Tuesday, Thursday and Friday. These hearings have been reported at length in the DAILY LEDGER, and Friday afternoon's hearing will be found in today's LEDGER.

Minstrels at Atlantic.

"In Atlantic, Atlantic, They say such things, And do such things; In Atlantic, Atlantic, We hope to say ever more."

A part of Atlantic's 400 were in the semi-circle on the platform Music hall, Wednesday night, and the seats on the floor of the hall held the balance.

Those seated on the platform were the black face entertainers, while those on the floor composed about everybody in Atlantic and they laughed and laughed, and shook and grew fat at the sharp, quick and bright sayings of the four end men.

It was a minstrel show, the first of Massachusetts Bay Colony, No. 102, U. S. P. O., and it was a good one from beginning to end.

Sam Weston, Frank A. Tilton, Dan Haley and Harry W. Reed were the end men. It was no new business for some of the four, for they had been there several times before. Sam and Dan were out of towners, but well known to the minstrel public, the latter more especially by the very large opening he has on the front side of his face. Frank Tilton and Harry Reed are also well known, although it was Frank's first appearance locally and some of his many friends on the N. Y., N. H. & Hartford, where he is yard master, came out to see how he looked with a black face.

Among those were noticed Superintendent U. C. Sanborn, Paymaster George W. Wilde, Roadmaster E. H. Bryant, Chief Train Dispatcher E. T. Wright, and Conductors Warren A. Page and H. W. Varny.

It would be utterly impossible, to tell the jokes and witticisms of these four men, but between the several numbers they were thicker than flies in fly time. Some of them were local hits and were good ones.

Of the several numbers on the programme it can only be said that the songs were all good and that each number was well sustained by the chorus which was round and strong. Each solo no doubt deserved a bouquet, but Charlie Stafford was the only man who had a stich in that direction, which shows that he must be a "good" "wid the ladies."

Just before the closing chorus of part one, Harry Reed was down for an original solo, entitled "Atlantic," the chorus of which reads this article, which was sung to the tune "On the Bowery." This solo was resplendent with local hits and the man or organization that escaped getting a rap was lucky, for the blows fell thick and fast, although perhaps the best verse was that devoted to the Ladies' Matinee whist club.

The welcome took the form of a reception, Rev. Mr. and Mrs. Carey being assisted in receiving by Mr. and Mrs. Walter C. Sanders.

After the reception there was music by Mr. George H. Critchfield, cornet; Miss Bjorkman, violin; Miss Hinkley, pianist; Mr. E. Walter Arnold, bass; and a quartette consisting of Dr. A. J. Colgan, Mr. Fred A. Sutermeister, Miss Barlow and Miss Baker.

After the invocation of the divine blessing by the Rev. Mr. Gratz, the Rev. Preston Gurney delivered the address of welcome; the Rev. Edward A. Robinson spoke for the clergy; the Rev. James E. Bagley made an address; Mr. Robert F. Ross spoke for the church; Mr. Walter C. Sanders for the Sunday School; Mr. Frank Grant for the Epworth League; Mr. Walter C. Sanders for the Ladies' Social Circle; Master Charles Hoxie for the Junior Epworth League; at the same time presenting a bouquet of flowers on behalf of the League to the pastor.

The company was received and ushered by Mr. Thompson, Mr. Grant, Mr. Samuel Kay, Miss Bertha Baker, Miss Belle Burns, and Mrs. A. J. Colgan.

Lavender Whist Party.
Mrs. Samuel Crane, High School avenue, gave a lovely whist party to forty ladies Tuesday afternoon. The opening session furnished flowers which made a lavender and green festival. She had a pretty concert for the guests and the highest prizes, drew beautiful prizes in the dainty China. These were a biscuit dish won by Mrs. J. H. Welch, a brush and comb tray by Mrs. E. W. H. Bane, a rose bowl by Mrs. G. W. Morton and candle sticks, all of china, by Mrs. H. F. Spear and Mrs. G. C. Saville.

A bowl of green upon the tea table was connected at the corners with the ribbons, with passion flowers, violets and pansies interspersed, made a feast for the eye. Bunches in green tissue simulating lettuce leaves, and in lavender, further decorated, and then more substantial viands came and a very delightful party concluded.

The season will soon crowd out the successful society events of the winter, but our ladies have been doing some solid work in the study of the fascinating game of whist.

Without question the whole people of southeastern Massachusetts desire a new South Union Passenger station in Boston, and are well satisfied with site and specifications as submitted to the Legislature by the railroad; but they want this station to be finished and occupied just as soon as possible, and with no unnecessary delay, whatever. The railroad, and not a commission, should have the building of this station, as it would then be finished without delay.

A Wollaston man writes:—If the patrolman who covers Wollaston would devote his energies to breaking up the gang of loafers who frequent the sidewalk opposite the stores instead of arresting a peaceable and highly respected citizen who happened to be waiting for mail to be distributed, he would be performing a service which would meet the hearty approval of a long suffering Wollaston citizen. There is such a thing as misplaced efficiency.

The Quincy men are bound that a man from this city shall be chosen, and if their claim is disputed they propose to make it unpleasant for the Quincy representative.

The Quincy Friday club met last Friday with Mrs. Howard Barnes. The exercises were under the care of Mrs. Babcock and Mrs. Welch, and consisted of Danish literature and art. Special attention was given Thorvaldsen and Hans Christian Andersen. The minor poets and literary lights were considered. The two former were the chief artists known beyond the confines of Denmark. A letter was read from an aged lady, who formerly lived years in Denmark being an intimate friend of Hans Christian Andersen and Frederika Bremer, telling at length interesting stories of their charming personality.

There are about four hundred trees in various parts of Quincy that were set out by the village improvement society. The question is now, what takes any care of these? We are not well able to have a city forester, and nothing has been seen or heard of the society since the big fountain was finished. It is suggested that our new Commissioner of Public Works look after these trees. If any of the old wooden protectors placed about them by the boys and horses while they were young, are still standing will not Mr. Knowlton please remove them? It is a pity that after they cost so much labor and money they should fall to grow to their best for want of a little care.

Sometimes about two o'clock on Sunday morning Officer Barry found a bicycle standing outside the door of John H. Gillis' shop on Hancock street. Officer Barry took one of the wheel which proved to be a new one. Next morning it was learned that the wheel belonged to Mr. Gillis and he had for his own use. Mr. Gillis left his wheel in his store when he closed up on Saturday night, and the supposition is that someone entered the back door and stole the wheel which was an awkward job, the frame, and being stuck the party who stole it was unable to ride it or get frightened and left it. At any rate Mr. Gillis got his wheel back again and will probably put a new lock on his back door.

The Quincy Patriot.

SATURDAY, MAY 28, 1896.

Woman's Alliance.

The Woman's Alliance of First church, held its annual meeting Monday afternoon. Rev. Mr. Butler, Mr. E. D. Dawson, Mrs. Bagley and a small delegation from the Unitarian church in Wollaston with about forty Quincy ladies comprised the gathering.

The Lord's Prayer was repeated in concert, after which the annual report of secretary and treasurer, Mrs. Morton, were read. The ladies have distributed funds collected, literature, clothing, etc., to needy parties in the West and South.

Mrs. Florence Everett of Dorchester gave an account of Unitarian work in the South, among our white and colored population. In a happy manner she showed the need of denominational work, not to make converts to the faith, so much as to help in general ways.

Rev. Mr. Butler, as usual, was in an earnest, happy mood, comparing the financial condition of the A. W. A. to a political party. One man asked a friend how his political cause was getting on. "Looking up," was the reply. They are on their backs looking up. Every cause has suffered from the financial depression of the past two years, and the A. W. A. has expended money freely and now is in need of money from its friends. The South needs all the help the North and West can render. Miss Everett gave a pleasing picture of the Unitarian exhibit in Atlanta in the winter.

Miss Elise Johnson of Weymouth, President, has the needs of outside work among Unitarian women, at heart, and she has zeal and interest to the alliance this past season.

A big bowl of punch, lilies of the valley in profusion, salted nuts, made the little tea tables attractive. The younger ladies served hot and Russian tea, lemonade, cakes and biscuits, and a pleasant afternoon was concluded.

It was 35 years ago Friday that the following recruits from Quincy, many well known today, joined the company of Capt. Franklin Curtis, Co. H, 4 Mass. Inf., at Fort Monroe, Va., and were mustered into the United States service. The present residence is given when known.

A Cheap Ride.

This is a pleasant time of the year to ride, and the street cars make it very convenient to enjoy an afternoon at a small expense.

One can start after dinner at half past one or two o'clock, on the Quincy and Boston line, and enjoy a pleasant ride through Braintree, South Braintree, Haverhill, Weymouth, Rockland, South Weymouth, Weymouth, East Braintree, Braintree, and arrive in Quincy soon enough for an early tea.

The fare from Quincy to Haverhill is 10 cents; from Haverhill to Rockland, 10; from Rockland to South Weymouth, 5; to Weymouth, 10; to Braintree, 5; to Quincy, 5. About fifty cents for the circuit—25 miles through a delightful country, where the buttercups and daisies bloom in all their fragrance.

Street Railway.

The new street railway from South Braintree to North Main street, Randolph, is being pushed forward, and it is expected will be completed by the 17th of June. "This is the road that the Randolph and Braintree people have desired," says the Register, "for a long time."

"The Quincy and Boston managers are confident that the Quincy and Braintree people will be very ready to pay one, and a great convenience to the public, especially during the summer season."

One step to share, and o'er each grave
The starry flag we loved shall wave!

AVONIA SPRING WATER.

WHAT we drink is more important than what we eat. Men have lived 4 days without food but no man ever lived without water. Water is absolutely necessary to health. It is the only agent that carries nourishment to the blood and enters every tissue and minute vessel in the body. Without water the blood shrinks and the blood dries. From two to four quarts daily is required to keep the body in health. CAUTION: It is absolutely necessary to drink only pure water. Water from lakes, ponds, etc., hold in solution decayed matter which no filter can purify and most springs and wells are charged with mineral salts which not only ruin the health but destroy the teeth, hair and blemish the complexion. AVOVIA WATER from Cragville Spring is the purest water yet discovered. It has a more abundant outflow than any spring now on the market, and gives a living crystal stream direct from the spring into the vessels. It is owned by the distinguished and well known Dr. Charles Cragville, who has been examined by the most skillful professional chemist of our day and pronounced to be water of extraordinary purity and health giving qualities. The purest, most palatable and refreshing of all Table Waters. The highest analysis is given to Parity and Health-giving Qualities recently rendered. Chemical analysis from four great colleges, including Harvard University, proclaim Avonia water to be of unusual purity. Avoid disease by drinking pure water. Avonia by mail promptly attended to. Spring Home at Cragville Cliff Weymouth Heights.

Woodward Enlargement.

It is now an almost assured fact that the Woodward Institute will be built in the very near future. The need of more room has long been felt by Miss Smith and her assistants, but the managers have taken some time before commencing work as it was uncertain if the desired addition could be made within the amount the managers of the fund thought they should expend.

A year ago plans were made for additions which the architect said could be built for a certain sum, but when the bids came in, they were all so high that the project was abandoned.

This year new plans were procured and his advertisement for the Woodward Institute was published. The Woodward Institute will be built in the very near future. The need of more room has long been felt by Miss Smith and her assistants, but the managers have taken some time before commencing work as it was uncertain if the desired addition could be made within the amount the managers of the fund thought they should expend.

Midnight Celebration.

Some few months ago the employees of the Quincy & Boston street railway organized a benefit association among themselves, the primary object being to furnish relief to its members, who by sickness or accident were incapacitated from duty.

As the organization grew in membership it was found desirable to have the organization incorporated, and application was made for a charter which has been granted under the laws of Massachusetts, and to celebrate the event the members indulged in a banquet, which was served Friday night, May 22, at Wilson's hall.

That a member could be present the hour of the banquet was fixed at midnight and at that time something like 43 were seated about the festive board.

In the absence of President Weeks, who was detained at home, Assistant Superintendent Waterhouse presided, and about him at the head table were the following guests: Hon. John F. Merrill, Brainard Dyer, Edwidge F. Porter, John McKnight, Joseph F. Costello, Chief Engineer Peter J. Williams, E. J. Parker, ex-Councilman John P. Bigelow, ex-Representative Charles L. Hammond, Officer Thomas F. Ferguson, W. E. Gardner, private secretary to Superintendent Weeks, John Grady.

For the Patriot.

Letter from the State House.

Boston, May 27, 1896.

The redistricting bill made its first trip to the house in quick succession. It was reported by Mr. Kneass, of Boston, who said that the senatorial arrangement in Boston was "the most famous gerrymander in the history of the State." He put into a strong democratic district and that is the reason which is made to his charge, but his amendment to correct the lines had the support of such leading republicans as Myers of Cambridge, Lowell of Boston, Clark of Weymouth, Brown of Everett, and though they had only 30 votes to 79, yet they might have carried the house, probably, if they had all pulled together.

The house stood by the redistricting bill on its second stage with the same unanimity it had shown on the first, although renewed efforts were made to defeat it.

The last appearance of the half-mile school tax bill in the house on Wednesday afternoon. The committee on ways and means had reported against it unanimously, and the dissenters on the education committee, who prepared the bill, were voted down, after a gallant struggle by 46 to 37 for rejecting the bill.

Great events crowd into the closing weeks of the legislature this year, just as they have always done, no matter how the managers of the business contrive the work of the house and senate. Tuesday saw an unusual amount of important action. The rare event occurred of the adoption of an order to bring a man before the bar of the house for contempt. This man is Henry N. Bates, who is wanted as witness in the Norfolk county court house investigation and who refused to tell the committee what they wanted to know. Then, too, the house performed the strange feat of substituting the Whitney pipe bill for the bill for the benefit of Mr. Bailey of Billerica who wants to go into the gas business for the whole people, the same as Mr. Whitney, only putting the Bailey incorporators, in place of the Whitney incorporators, and then passed the bill to be engrossed. In the senate, the original Whitney bill was passed to be engrossed in the exact form in which it came from the house, thus obtaining the necessity of returning for amendments, and about him at the head table were the following guests: Hon. John F. Merrill, Brainard Dyer, Edwidge F. Porter, John McKnight, Joseph F. Costello, Chief Engineer Peter J. Williams, E. J. Parker, ex-Councilman John P. Bigelow, ex-Representative Charles L. Hammond, Officer Thomas F. Ferguson, W. E. Gardner, private secretary to Superintendent Weeks, John Grady.

At 3:30 the exercises in each room began. They consisted of patriotic songs and Memorial Day selections chiefly. The teachers who welcomed visitors to the rooms and entertained were: First grade, Miss Clara E. G. Thayer; Second grade, Miss Ida J. Cameron; Third grade, Miss L. Russell; Fourth grade, Miss Carrie A. Crane; Fifth grade, Miss Edith F. Bates; Sixth grade, Miss Annie D. May; Seventh grade, Miss Minnie L. Finch; and Eighth grade, Mr. Charles E. Finch, Jr.

It was voted that the fall term of school commence Tuesday, Sept. 8.

The matter of fuel for the schools was left to the committee on supplies.

A communication was received from Councilman Theodore Parker for an examination of the older school houses of the city, and after some discussion it was voted: That the attention of the city council be called to the desirability of a better heating and ventilating system for the frame school buildings of the city.

Adjourned at 9:15.

High School Graduates.

The popularity of the Quincy High school is shown by the large class which was graduated on Wednesday afternoon. The graduates are nearly perfect for the event which marks an era in the life of the following young ladies and gentlemen:

FOUR YEARS COURSE. Beatrice May Briggs, Margaret Louise Burpee, Isabel Francis Butler, Mary Elizabeth Cahill, Mary Elizabeth Costello, Rose Coyle, Fannie Maud Cummings, Helen A. Dancy, Sarah Gertrude Edwards, Lucie Hamilton, Gavin, Isabelle Hay, Anna Christina Healy, Catherine Emma Healy, Flora Louise Leak, S. Eleanor Lord, May Capen McLeod, Lottie M. Peterson, Marion Hammond Pitts, Mary Eva Thayer Pitts, Jennie May Harvey, Annie Louise Ritchie, Beatrice Helen Rothwell, Antoinette Irene Sweeney, Mildred M. Willett, Charles John Anderson, Frank Maxwell Cole, John Warren Norrhead, Jacob Warshaw, Harold Wilder.

BUSINESS COURSE. Mary Leonie Amet, Grace Ethel Batson, Sophie Erica Carlson, Carrie Eva Greer, Russell Weston Badger, Peter Aloysius Barry, Jeremiah Aloysius Barry, Raymond Palmer, William Thomas Donovan, Walter Dunn, Frank Joseph Duran, Philip Thomas Egan, Francis Eugene Garrity, John Joseph King, Arthur Francis Leclair, Alexander H. McIntyre, John Laurence McTear, John Joseph McNee, Walter Allen Mitchell, Francis Dennis Reardon, Victor Emanuel Serber, Timothy Joseph Sullivan, John Joseph Sweeney, Michael Thomas Walsh.

IN accordance with its time honored custom Paul Revere post and its auxiliaries attended services in a body on Memorial Sunday, and were favored with two inspiring addresses by local pastors.

At 10 A. M. the organists assembled at the Grand Army headquarters in goodly numbers and proceeded to the new Calvary Baptist church on Franklin street, under invitation of the pastor, the Rev. C. A. Parker. His address was interesting and inspiring, and the LEXINGTON regrets that space will not permit an extended synopsis.

In the afternoon the Post assembled at 3:15 o'clock and accompanied by Francis L. Sawyer of South Scituate, and by the members of the first church where an annual Memorial address by Rev. Elvly C. Butler was delivered. Previous to the address there was the reading of the scripture lessons and singing by the church quartette.

The pulpit of the Unitarian church was an artistic and lavish decoration of beautiful flowers. These masses of white floral wreaths rested against the crimson pulpit at the top. Large palms were upon the high rails, and a very tall slender vase of four deutzias stood in front of the altar.

After meals you should have simple feeling of comfort and satisfaction. You should not feel that you are eating. Digestion is going on. If you do, you have indigestion, which means not digestion. Indigestion is the beginning of many dangerous diseases, that is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial is the only remedy for indigestion. Shaker Digestive Cordial does this by providing the digestive organs with the food which is wanted. It also tones up and strengthens the digestive organs. Its action is perfectly natural and healthy. This is the rationale of its method of cure, as the doctors would say. Sold by drug stores, price 10 cents to \$1.00 per bottle.

An opinion was received from the City Solicitor in relation to children attending school in Quincy free of charge, whose parents claimed a residence elsewhere but paid taxes and had a temporary residence in the city. The opinion which is an important one, was as follows:

It was voted that the junior of the Quincy school be paid \$1 per week until the end of the present term for the care of the room used out of that building.

Coddington Exercises.

Exercises appropriate to Memorial day were held at the Coddington school Friday afternoon and while in one sense of the word they were simple they were very interesting.

Promptly at 2 o'clock while the City Band played "Marching Through Georgia," the pupils marched out of the rooms and took positions facing the building.

Meanwhile a large number of the parents and friends of the pupils had assembled, and with them was a delegation from Paul Revere Post consisting of Commodore C. H. Porter, and F. C. Hallows of the school board, F. W. Lord, J. T. French, J. W. Pierce, Franklin Jacobs, Elijah Brown and Ephraim Thayer.

The following programme was then carried out:

Decorations Day.
BY ELIZABETH PALMER MATTHEWS.

Thin grow the ranks. A few more, weary men,
With the white spray of age upon each brow,
Come in sad memory of those far-off days
When they marched gallantly where they falter now.

A few are left. How short has grown the list!
We call it tenderly with hushed breath,
Lost from our ranks should fade the noble band
To answer to the roll-call of the ruler, Death.

Few, few are left. The ranks grow thin and wide
As part as the dim annals of the past.
Silent and slow they come, who once
Their conquering forces on the foe man cast.

Only a few with weak and faltering tread,
And for a little while their march they keep
O'er the rough ways of poverty and age,
To bivouac grounds of rest, so green and deep.

Thin grow the ranks. In silent camps they wait,
Who shared those hours of victory or defeat;
And marble sentries guard the sacred spot
Where war-born heroes rest in slumber sweet.

So few are left! Where are those gallant ones
Who led the conquering bands to the light of peace,
And set a race of suffering people free?
So few, but ah! the golden-fruited years
Have scattered memory-blossoms on their way;
And a glad Nation comes with thankful heart
To tell its love on Decoration Day.

Notes and Comments.

—A following is the new and sensible way which a machinist, of that pretty village in Ward Five, has of spelling its name: "Woolston."

—Mr. Richard Brooks, the talented young sculptor of Quincy, is not expected home from Paris before July. Many works on hand, says Boston Home Journal, are delaying his departure.

—One of the most practical and sensible business men in the Senate this year is Hon. William H. Cook of Milford. He attends not only to the duties of his constituents, but is a faithful servant of the people; endeavoring to enact such laws as will be for the greatest good to the greatest number. He is not an eloquent speaker, but his honest, forcible words have a telling effect on his listeners.

—The property owners at East Concord, N. H., will not be blamed if they indulge in an unusually loud grumble about taxes. It is found that this year's rate will be \$120 on each \$1000 of valuation; the highest rate ever assessed in that State.

—Charles Francis Adams says a young man should be able to write and speak the English language correctly before entering college. The rule would be a good one also for a man leaving college, but it would seriously cut down the list of graduates.—*Milford Journal.*

—The pay roll of the Pennsylvania railroad averages \$100,000 a day.

—The great Yankee telescope which is now being built, will bring the moon within an apparent distance of 60 miles.

—An editor says that apples may be kept two years by wrapping them in newspaper in such a way as to exclude the air. The newspaper must, however, be one on which the subscription has been paid in full, or dampness resulting from what is dew (?) may cause the fruit to spoil.—*Quincy Sentinel.*

—It is over sixty years since Morse invented the telegraph; it is less than forty years since the first message was sent across the Atlantic. Yet in this short period the countries of the earth have been brought into contact by cables sunk on the ocean beds and by lines stretching across deserts. One evening recently, a message sent from the Electrical Exposition in New York, made the circuit of the globe in thirty minutes.

—A new town to be occupied exclusively by colored persons is soon to be founded near Tecumseh, Kan., and will be named Summer. No "cheap white trash" is to be allowed to contaminate the place. F. V. V.—*Franklin Sentinel.*

Are You One
Of those unhappy people who are suffering with weak nerves, starting at every slight danger?
How? Cool? I actually shivered!"—*Boston Transcript.*

During the war old Ratus was asked by a Federal soldier why he was not out fighting for his rights. After pondering for a moment, he replied: "Did you ever see two dogs a-fightin' over a bone, sah?"
"Yes, oh, yes!"
"Did you ever see the bone fight?"

"Bicycling is quite the fad nowadays," said Wilkes. "I fancy it's because it's cheap."
"That shows that you don't know anything about it," said Barlow. "My first lesson cost me a dollar for the lesson, six dollars for damages to the bicycle, two dollars for a new one, and a week's salary owing to absence from business with a busted ankle and a broken head."

"Well, Bob, which do you like best, the pictures or the statues in this museum?"
"Well, I reckon I like the statues most, 'cos I can go all round 'em, and see 'em on both sides, and you can't see only one side of the pictures."

The story is told of brave old Gen. Jim Sisson that during the thickest of the battle at Chickamauga he dashed up to a retreating brigade and shouted: "Face about, boys! We must hold this point!"
"But general," said a brave officer "we have done everything that brave and patriotic men can do for their country."
"What! Everything? Blank blank it, you haven't died yet!"

Adams-Thayer.

A better day for athletic sports could not have been had than that of Saturday. It was not too hot, neither was it too cold, and therefore the contest between the Adams and Thayer Academies at Lovell's grove had many spectators.

It was the first annual athletic meet in the dual league between the two academies. There were ten events in all and there were a good number of entries in each from both academies. They came down with a large number of friends many of whom were ladies, and they carried flags of the school colors, orange and black, which they waved vigorously to cheer their favorites on to victory.

On the other hand the Adams boys were not wanting in admirers and their lady friends carried flags of the blue and white, and they proved themselves as good as the Adams boys in every respect. The several events and their winners were as follows:

The Quincy Patriot.

SATURDAY, JUNE 6, 1896.

Report on Norfolk Investigation.

The special committee on the Norfolk County investigation reported at length to the Legislature Thursday, and it is one of so much interest to the taxpayers of Quincy that the LEADER gave in full, aside from the introductory on Friday. It makes interesting reading.

Senator Quinn is the only one to dissent. While concurring in the facts and practically all of the report, he declares that he finds no proof of dishonesty on behalf of the Commissioners.

The PATRIOT has not the space to give the report in full but here are two of the concluding paragraphs.

It is impossible for the committee to resist the conclusion that this united attempt to conceal and obstruct the investigation, arises from the fact that a full discovery of the facts would reveal corrupt dealings between the contractors and at least one of the commissioners. The unobscured facts are that money to a considerable amount was spent beyond the requirements of the county and in violation of law. It is unquestioned that the contractors reaped a large profit through the connivance or neglect of the commissioners, and the students attempt to conceal the facts and obstruct the investigation, in which the present commissioners and the contractors cordially concurred, is an evidence that the expenditure was not merely extravagant, but it was dishonest.

The committee find nothing in the evidence which involves any suspicion of dishonesty on the part of the commissioners. Blameworthy as the report of the first of January, 1895, after the contracts on the court house had been made and the work was nearly completed, but the present Chairman of the County Commissioners, in their judgment, is the person mainly responsible for all that they find to be in the dealings which have been rectified, and his associate, Mr. Bowker, must share the responsibility, since without his concurrence the laws could not have been violated and his negligence, if nothing else, made the extravagance and fraud possible.

Several prominent gentlemen, good tax payers, have responded to his ideas, and probably soon a meeting of citizens interested in public improvement will be called. Shawmut Spring Water

How many people realize the importance of drinking only pure water in large quantities in order to keep in absolutely good health? When we consider that two-thirds of the human body is in the form of water, and that in order to supply the losses by excretion and evaporation it is necessary to drink from one-half to one gallon of water daily; it is of the utmost importance that the water should be of the very best quality, perfectly free from the slightest trace of organic matter.

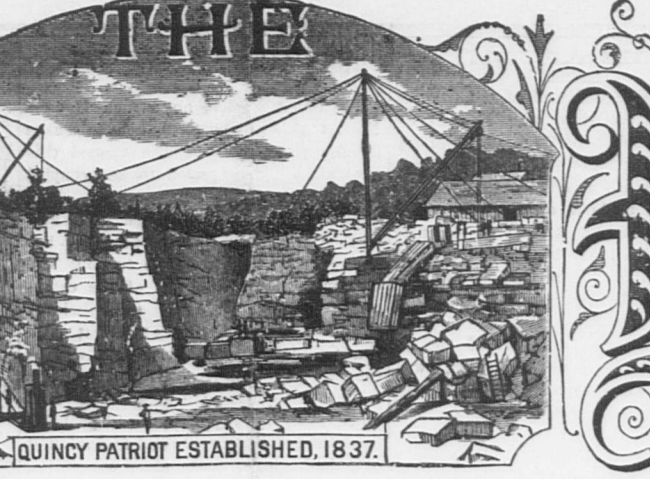

The Shawmut Spring Water stands second

to none as a pure drinking water. Hundreds of families are using it every day. It is an important factor in maintaining health, building up and restoring the organs of digestion to healthy action. Cures Rheumatism, Kidney and Bladder troubles, when duly applied.

Send your order for a 5-gallon sash package. If you don't like it, it costs nothing. Drink it and you will be satisfied of its purity.
